PROFESSIONAL EXPERIENCE

Software Engineer Intern (.NET & Web) | SoftConsults **Apr 2026 – Aug 2026**

- Developed and maintained robust enterprise web modules utilizing ASP.NET Core MVC, C#, and Entity Framework Core.
- Designed and queried Microsoft SQL Server databases using a Database-First approach, writing optimized Stored Procedures and Views.
- Implemented secure CRUD functionality, data validation, and REST API endpoints across application features.
- Engineered responsive, dynamic user interfaces using Razor Views, HTML5, CSS3, JavaScript, and Bootstrap.
- Utilized Visual Studio and Git/GitHub for version control, collaborative development, debugging, and agile code reviews.

Web Developer | SK-TECH **2023 – 2024**

- Designed, developed, and deployed responsive web applications utilizing React.js and JavaScript (ES6+).
- Built interactive and modular user interfaces utilizing Tailwind CSS, Bootstrap, and reusable React Hooks.
- Integrated third-party RESTful APIs and managed client-side state for real-time, dynamic data updates.
- Optimized frontend performance, achieving faster load times and cross-browser responsiveness.

WordPress Developer | Premium Web Tech **2022 – 2023**

- Architected, customized, and maintained client WordPress websites, developing custom themes and extending plugin logic.
- Executed full-cycle website migrations from legacy platforms to WordPress with zero data loss.
- Integrated third-party APIs, webhooks, and payment gateways while maintaining site architecture and security.
- Ensured maximum uptime, performance optimization (caching/asset minification), and adherence to SEO best practices.

Front End Developer | Safi Dot Tech **2020 – 2021**

- Implemented mobile-first, cross-browser responsive UI layouts using HTML5, CSS3, and JavaScript/jQuery.
- Optimized image assets, CSS, and script execution to improve site speed and Core Web Vitals.
- Collaborated with UI/UX designers to translate wireframes into accessible, pixel-perfect web pages.

KEY PROJECTS

Employee Management System *(ASP.NET Core MVC, C#, EF Core, SQL Server, Bootstrap)* Academic / Professional Project

- Built a complete employee lifecycle management portal supporting robust CRUD operations for departments, designations, and employee records.
- Architected SQL Server database using Entity Framework Core (DB-First), writing custom stored procedures for optimized filtering and reporting.
- Integrated responsive Razor Views, client-side validation, and role-based data views for seamless user experience.
